

Rome, Palazzo Mattei di Giove, February 21th 2020

To the President of ISUF CHINA

Prof. Dr. WOWO DING

The executive board of ISUF Italy, during its 5th International Conference "Urban substrata and city regeneration" in Palazzo Mattei di Giove in Rome, decided to convey an official message to the friends of ISUF China and therefore submits this text to the conference assembly for approval.

Dear friends of ISUF China:

We intend to express our great sorrow for your absence at this conference caused by the traveling restrictions applied following the outbreak of the Coronavirus in the People's Republic of China. The Chinese members of the International Seminar on Urban Form have always been fundamental to deliver a meaningful contribution to the development of Urban Morphology researches. We would like to deliver our full solidarity to all the researchers and scholars that could not attend this conference in Rome, hoping that the crisis will be resolved quickly and positively. In the meanwhile, we will do all that is possible to keep active the communication with you, utilising any technology to overcome the divisions that travel restrictions are imposing on the scientific community.

The executive board of ISUF-Italy and all the conference participants.

Approved by the conference assembly.
