| Strappa Giuseppe - [1051714] URBAN MORPHOLOGY AND PROFESSIONAL PRACTICE | . | 1 |
| | all is good | 1 |
| | all it`s good | 1 |
| | Best | 1 |
| | Content of course : very good/very clear | |
| | Lessons in class : good | |
| | Guest lecturers: very interesting | |
| | Number of people in class : too many - it affects the project review | 1 |
| | decrease number of students in the class, dont spend a lot of time for the first part of the exercise and try to cover the project before the exam, teach more about analysis and road, pedestrian and landscape design, dont invite assistant to have lecture, I like the lecture and professor | 1 |
| | Give the students of prof. Strappa more credits for his excellent and relevant course - he deserves more support from the faculty and smaller numbers of students enrolled. I am very satisfied with this class. I find this course very stimulating and interessting in the way it is approached and explained . We were initiated in this course to the Italian school of Urban morphlogy which is a good teaching for all of us comming from different countries. | 1 |
| | I didnt check "the prog website?" so i can't say if the actual teaching content matches with it. | 1 |
| | This evaluation concern 2 courses but this form doesn't allow us to make distinction so i evaluated the courses as a whole. | |
| | Both classes were very interesting and yes the lecturers stimulate interest i learnt a lot in this course. | 1 |
| | Lectures provided by professor were so interesting, giving deep understanding of subject. Professor so helpfull always tries to increase interest to lectures ., i would say most interesting subject and best professor of semester. | 1 |
| | Loved this course, don't change anything! | 1 |
| | NICE PROF STRAPPA, WE LOVED TO GET COURSE OUT OF CLASS, WE COULD UNDERSTAND DIRECTLY ABOUT THE CASE. | 1 |
| | No one knows how our grade is calculated nor do we know if we have 2 tests. It is so frustrating! Why can't our notebook be graded out of 10 points? Our presentation is 10 points? And our final exam 10 points? | 1 |
| | no,thanks | 1 |
| | Professor Strappa was very helpful and supportive during the semester, we know he did his best with us. However, many students were registered for this subject, so it was impossible for the professor to provide support to each student during our group works | 1 |
| | Thanks so much professor! I really enjoyed the class and learnt a lot!! | 1 |
| The course was very well strcutured. To be taught by Prof. Strappa was an honour. Contents were very clear. Just wish this had more credits dedicated and was not mixed with economics which has no relation with Urban morphology. | 1 | |
| The walking was awesome | 1 | |

| | |
|--|----|
| This course suppose to have a limit for number of students who can take this course especially for the Erasmus and Exchange students. As normal student, I felt the class for this course to crowded with small class, also it's hard to have consultation with teacher intensely. | 1 |
| This discipline should have more credits, since it seamed of great importance to all the students coming from different parts of the world. The subject was very interesting and students presentations on study cases in their own countries. | 1 |
| thx u proff strappa and team | 1 |
| Very good content and professor strappas method was very interesting and simplified we | 1 |
