all was good	1
An extremely interesting subject very well presented and subordinated by the Prof. The major part of the bibliografy was in English helping the students to uderstand better	1
As we are international students, giving more basic information and explain everything clearly helps. Thank you	1
best professor ever ..	1
Class really good	1

Analisi Domande Descritte	Totali
considering the rest of the course, any complains would force me to give a monstrously bad questionnaire about other professors	1
every things is great	1
everything is wonderfull	1
I found the lectures very interesting and I didn't have any problem studying the topics; I can say i'm Pretty satisfied with the course.	1
I think the course overall is so good but its a bit confusing having an exam that will determine my base grade specially when there are no specific books to study and prepare.	1
I would suggests to have more hours for the class in order to go more deep in the subject.	1
Interesting Subject which every architecture student have to learn.	1
it was a great useful course	1
it was most interesting class. our prof. was best	1
It was the most interesting course this semester	1

nice class, nice professor	1
no	1
No complaints	1
nothing	2
nothing	1
one of the best topics during our course with one of the best professors. really lovely professor .	1
only class that made me interested this semester	1
Organize more works in class	1
perfect	2
Prof. Strappa is eager to teach and try to understand if we took all the knowledge he gives. Thanks to him, it was one of the most cared class during this master course.	1

Analisi Domande Descritte	Totali
Professor Strappa is simply the best professor we had this year, he cared so much about the well being and the full attention of the students, he wants everyone to understand the material so well, he provided lectures by other foreign and local professors to give us also other points of views and methods way different than his, just in order to open our minds to all methods and ways of thinking.	1
PROVIDE BASIC KNOWLEDGE	1
than you	1
Thanks	1
The course together with the guest lectures have relevant and a lot of content. The time table was optimized by the Professor. It would be nice to have all the slides be uploaded prior to the lecture in order to print and make notes on it during class.	1
The course was very clearly outlined, therefore easy to follow. Professor himself was engaged in the course, which is appreciated. Same for his assistants, always prepared and eager to answer the questions. Precious aspect of the course were lectures with scholars and architects out of the university. Overall satisfying.	1
The walks and the conferences were really interesting. Finally an enthusiastic teacher linking the course to Rome and showing us on site what we learned...	1
this class need more hours because it's interesting	1
TOTALLY SATISFIED.	1
Very helpful professor, ready to answer any questions.	1
