

## Urban Morphology Course – Sapienza – Faculty of Architecture

### Prof. Giuseppe Strappa

2021/22

## KNOWLEDGE ALLIANCE FOR EVIDENCE BASED URBAN PRACTICES

# KAEBUP INTERNATIONAL LECTURES

Kaebup International Lectures is a series of web and in attendance meetings intended to investigate the relations between the discipline of Urban Morphology and Architectural Design.

The initiative relies on the contributions of the international research group Kaebup and of the Sapienza University Urban Morphology Course in Rome. The series of lectures aims to present different methods of reading the built landscape and ways of translating research into evidence-based design. The series of lectures has been organized in the belief that combining research and practice could open up new aspects of the disciplinary debate on the tools of the architectural design.

Tuesday | 5 October 2021 | h 15:00

**GIUSEPPE STRAPPA**

Sapienza Università di Roma

*Urban Morphology for the contemporary architecture*

Tuesday | 12 October 2021 | h 17:30
